PROJECTS

Ignitech
Fall, 2021 - Summer 2022
University of North Florida
Student Senior Project

Student Registration System, K-9 Obedience Club of Jacksonville
Development of a web-based application to allow potential students for the K9 Obedience Club in Jacksonville to easily browse, register, and pay for classes and membership online. The project was developed using agile methods with a React.js front end and .NET 5.0 back end, connected to an Azure SQL database.
